Profile

Enthusiastic Frontend Developer with expertise in HTML, CSS, and JavaScript, complemented by hands-on experience in Angular, React, and Vue.js frameworks. Proficient in leveraging these technologies to create engaging user interfaces and seamless user experiences.

Notably, I bring a strong background in ERPNEXT and Frappe frameworks, having contributed to impactful projects that involved implementing innovative solutions and enhancing functionality.

I am passionate about staying at the forefront of technological advancements and thrive in collaborative environments that foster creativity and growth. Eager to leverage my skills and experiences to drive impactful solutions in a dynamic team.

Professional Experience

Junior Software Engineer, *Enfono Technologies*   04/2023 – 01/2024 │ Kochi, India

Self-taught expert in Vue.js frontend development, with extensive research and hands-on experience.

Pioneered the integration of modern Vue.js frontend technologies with ERPNEXT's robust backend, enhancing user interface and experience.

Developed intuitive and responsive UI by leveraging Vue.js to bridge ERPNEXT's backend capabilities, utilizing Frappe UI for seamless communication.

Championed the adoption of Vue.js within ERPNEXT projects, showcasing the power of frontend innovation within a Python-focused ecosystem.

Collaborated closely with cross-functional teams to prioritize frontend design and usability, translating complex backend processes into intuitive frontend experiences.
